I would just call the helpline back and mention you have a ticket in but haven't heard back for a few days and you'd like to ask who it was assigned to so you can check in with them.

My experience is that if you haven't heard back in more than a day, then it probably fell off the radar of the IT person to whom it was assigned. The person who takes the Helpline calls will probably follow up directly with the IT person to get back to you.

Thanks for the information. I contacted them previously about One Drive and they are working on it. However, I haven't heard back as of late. Is there a particular person in IT I should contact to push this along?

Since it's a helpline ticket for you, here's what to do:

Call (415) 947-8023. Tell them you are a new employee (contractor) and need to be able to review One Drive files that EPA staff share with you in response to FOIAs. You can mention that I tried to share some files from One Drive with you and it didn't work.

Karen

Yes, please do.

Alternatively, I have access to the SharePoint: R9 RCRA Branch online, so I can view, upload, and edit documents there.

Thanks,
Paris

Hi Paris, I'm having trouble sharing the One Drive folder files with you – are you set up to receive One Drive folders shared by staff? If not, we can put in a helpline ticket with IRM.

Thanks,
Karen

Hi Paris,

Per today's kick-off call, I will share the One Drive folder with you of George Randell's files on the Wilmington site.

Also, here is how to pull up the 11 files in ERRC on this site:

1. Once in ERRC, click on "Interactive Search"
2. Type in "Wilmington"
3. Click on the "Project" column header and select "TSCA"
4. Click on the "Handler Name" column header and select "Wilmington Marine Services Boat Yard"

This will generate 11 entries that have an attachment you can open and download in the "Attachment" column.

Thanks,
Karen

Subject: RE: FOIA Assignment for EPA-R9-2020-001711

Hi Angelo, here are the files I'm aware of, and there are likely duplicate files among these:

- 1) 17 files from George Randell (former employee)
- 2) 11 files located on ERRC
- 3) 21 email exchanges from Cynthia Ruelas
- 4) 2 email exchanges from my files
- 5) Steve's emails? (Steve will need to check)

Please note that Cynthia recently shared all of her emails on the Wilmington site with me as I was notified last week about this FOIA. So the only other person who could have responsive emails is Steve, who might have older email exchanges when George was overseeing this site.

Given the limited number of responsive files we have, I don't think there's a need for additional clarification from the requestor.

It may take a little time for me to review Cynthia's emails for releasability, in case there are some internal exchanges that could be considered pre-decisional to be flagged for ORC review. Other than that, I would just check the files listed above for duplicates.

Thanks,
Karen

Subject: Re: FOIA Assignment for EPA-R9-2020-001711

Good afternoon Karen,

Since you mentioned that there are multiple records, including historical emails, we will likely need to have a kick-off meeting to get a cost estimate for this FOIA, and/or request additional clarification from the requestor.

To answer your questions:

- 1) We do not need to move the emails, we will fill out a form and have IT do an electronic search for us. They will automatically comb through emails and identify any potential hits.
- 2) To review for releasability, the SME and their manager are generally asked to identify any records to be redacted / withheld. ORC then reviews only those records that were flagged.

In preparation for the kick-off meeting, do you have an estimate of the volume / how many email records there might be? Another item we need to clarify, is if you are aware of hard copy documents that need to be reviewed (if so, we would ask to extend the due date of this FOIA since we don't currently have physical access to the office).

The current request is "any and all records", which may affect the number of responsive documents / emails. Is there a date range for these records, and do you know roughly how many persons were involved with the site? IT may need to comb through those persons' emails as well.

Thanks!
Angelo

Hi Steve, I will take point in collecting files for this FOIA. Cynthia has provided me with all of her email communications on the Wilmington site. I will also check for other files.

Laurie or Paris, since some of Cynthia's emails are internal, who is the R9 FOIA attorney that needs to review them? Also, is there a database to which I need to download Cynthia's emails for attorney review?

Thanks,
Karen

Karen, I believe this site was transferred from Cynthia to you.

I am surprised we don't have records in ERRC. Cynthia was pretty good at filing?

Subject: FOIA Assignment for EPA-R9-2020-001711

Good afternoon,

We received the attached new FOIA #1711 last Friday, request is as follows:

Description:

"Resolute Management Inc. ("Resolute") is the authorized claims handler for claims being made under certain insurance policies issued by the following to the City of Los Angeles Harbor Department ("City"): Certain Underwriters at Lloyds, London; Certain London Market Insurers; Lamorak Insurance Company (formerly known as OneBeacon America Insurance Company, formerly known as Employers Surplus Lines Insurance Company); Continental Casualty Company; The Continental Insurance Company (as successor-in-interest to certain insurance policies issued by Harbor Insurance Company); and Stonewall Insurance Company. This is to request a copy of all documents the United States Environmental Protection Agency ("Agency") has relating to the Wilmington Site. We are interested in all information contained in your files, all communications with the City, and all investigation and remediation of environmental contamination at the Wilmington Site."

Short Description:

TSCA PCB site: Wilmington Marine Services or Berth 162, 801 South Fries Avenue, Wilmington, CA

We conducted an initial records search on ERRC for Handler ID CATSCA101162, Wilmington Marine Services, but returned no records. Please advise who might be the SME for this facility, and/or if we have responsive records?

Thank you,
Angelo
